---

Experience

Techvins Software

Frontend Developer
Gurgaon, India | July 2023 – Present

- **Developed responsive and dynamic websites** for blogs, educational platforms, personal branding, and real estate projects.
- **Implemented user authentication** features, including login, signup, and personalized dashboards, enhancing security and user engagement.
- **Collaborated with backend teams** to integrate RESTful APIs, ensuring seamless data flow and enhanced functionality.
- **Optimized website performance**, reducing page load time by 30%, improving efficiency and user satisfaction.

Key Projects

RealBetter (B2B Real Estate Platform)

- **Built dynamic user interfaces** using Next.js, ensuring responsive design and smooth property browsing.
- **Integrated secure payment gateways** (e.g., Razorpay) for property transactions and bookings.
- **Developed an admin panel** with Next.js for efficient management of property listings, user accounts, and transaction data.

College Bharat

• **Led frontend development** for a platform helping students explore **government exams and college admissions**.
• Built features for **college search, exam brochures, and resource exploration** across India.
• Optimized performance, achieving an **80% increase in page speed** for a seamless user experience.
• Enhanced **UI/UX** to improve accessibility and engagement with educational content.

TechVins Website

• **Independently developed** the company's official website using **Next.js** and **Tailwind CSS**.
• Achieved a **100 PageSpeed score**, optimizing for **performance, SEO, and user experience**.
• Designed a **responsive, multi-page website** aligned with the company's branding and goals.
• Implemented best practices for **fast loading times and smooth navigation**.

Personal Projects

Study Notion (E-Learning Platform)

- **Developed a MERN stack application** with distinct roles for admins, instructors, and students.
- **Integrated role-based authentication** for secure and personalized user access, enabling admin-controlled course categorization.
- **Implemented payment processing** and created intuitive dashboards for tracking course enrollment, progress, and completion.
